Subject Field Activities, Omega Site

Chris:

For your reference the following field activities are planned for this week:

- Today-Install transducers in test well and observation wells, and collect ongoing background water level data;
- Tuesday-Mobilize Baker tank to site, start 4 hour step test (may go directly into 12 hr. constant test);
- Wednesday-Start 12 hr. constant pumping followed by recovery (if didn't start on Tuesday);
- Thursday-Collect recovery water level data; and,
- Friday-Pull Transducers and pump (BC2)

Chuck
